

### Standard Features:

- 5 models available to suit various needs
- Full-color touchscreen control panel
- High-Capacity Vertical Stacker holds up to 500 finished envelopes
- AutoSet™ one-touch setup
- Fully automatic adjustments
- Processes up to 3,600 pieces per hour, and up to 40,000 pieces per month
- 25 programmable fold applications
- Clamshell design for easy access to paper path
- Seal and non-seal capabilities
- Two counters: One resettable for addition and batch counting, and one non-resettable
- Four adjustable insert fingers
- Double document detection
- Folds and inserts up to 10 pages in half-fold, up to 8 pages in tri-fold
- Low noise level, ideal for any environment
- Fold types: C, V, Z, Double Parallel, No Fold

### Abilities:

- Folds and/or inserts sheets, business reply envelopes and cards automatically in almost any combination
- Multifeeding: Allows for a set number of pieces to be pulled from one feeder, then collated, folded and inserted automatically
- Folding only without inserting
- Daily Mail mode for inserting stapled sets

### Options:

- High-Capacity Production Feeder holds up to 325 BREs or short inserts
- Short Feed Trays
- OMR: Optical Mark Recognition
- BCR: Barcode Recognition
- MailDoc™ Document Management Software
- Side Exit Tray
- Locking Cabinet
- 402 Series Joggers: Reduces static electricity from forms and aligns them for proper feeding

*FD 6304-Standard 2F, with High-Capacity Document Feeder and Vertical Output Stacker*

### Fully Automatic Inserter with High-Capacity Features

The 6304 Series Inserters combine user-friendly features with high productivity. Five models are available to meet the needs of any size office or mailroom. Standard insert feeders accommodate up to 325 sheets each and the High-Capacity Vertical Stacker, which holds up to 500 finished envelopes, is standard on all models. A full-color touchscreen control panel, combined with 25 programmable jobs, provides efficient and hassle-free operation.

The **6304-Standard 3** features three standard feeders. The **6304-Special 3** offers two standard feeders and one special feeder. The **6304-Standard 2F** is a two-station configuration with one standard feeder and one High-Capacity Document Feeder that holds up to 725 sheets. The **6304-Special 2F** has one High-Capacity Document Feeder and one special feeder. The **6304-Standard 2FP** has one High-Capacity Document Feeder and a Production Feeder with a capacity of up to 325 BREs or short inserts.

The 6304 Series is powerful enough to fold up to 8 pages in tri-fold and up to 10 pages in half-fold modes. Its versatility allows for processing forms of various lengths and thickness all at the same time, up to 3,600 per hour and up to 40,000 pieces per month.

Options include Advanced OMR and BCR, Formax MailDoc™ Software, short feed trays, production feeder, and a side exit tray.

## Flexible

The 6304 Series is available in 5 configurations to meet your specific processing needs. A variety of documents up to 14" in length, including checks, invoices, newsletters and reply envelopes can be inserted in almost any configuration. The 6304 Special models have a special feeder that allows for the insertion of glossy and thicker documents as well. To increase productivity, all 6304 Series models include a High-Capacity Vertical Stacker that holds up to 500 filled envelopes. The 6304-Special 2F and Standard 2FP feature a High-Capacity Document Feeder which holds up to 725 sheets, ideal for OMR/BCR applications.

## Powerful

The 6304 Series processes at a rate of up to 3,600 pieces per hour and up to 40,000 pieces per month. Feeders can be re-filled on-the-fly allowing for continuous operation. Cascade Mode maximizes output by connecting multiple feeders filled with the same documents. When one feeder empties, the next automatically starts feeding, for a total hopper capacity of up to 1,050 sheets. The enhanced folding system folds and inserts up to 8 pages in tri-fold and up to 10 pages in half-fold.

## Secure

The 6304 Series has double document detectors located at each feed station to ensure document integrity. Optical Mark Recognition and Barcode Recognition are available options which allow for the automatic insertion of multiple-page documents. OMR and BCR determine which documents go together into each envelope, eliminating the tedious task of manually collating and inserting, while increasing document security. To generate OMR/BCR marks on documents prior to inserting, Formax MailDoc™ Software is a flexible and economical solution that can provide postal savings through sorting, grouping and duplexing.

## Quiet and Easy to Use

The full-color touchscreen control panel provides easy setup at your fingertips. The AutoSet™ feature automatically senses and sets paper length, fold type, envelope size, fold length and double document detection. Simply load the documents into the feed hoppers and go. The 6304 Series also includes 25 programmable fold settings for recurring or frequently processed applications. The drop-in feed system and easy access to paper paths increase efficiency and maximize output, while its quiet operation is ideal for any environment, from mailroom to office.

## Specifications

Speed:	Up to 3,600 pieces per hour
Duty Cycle:	Up to 40,000 pieces per month
Standard Feeders:	Up to 325 sheets each, 20# bond
High-Capacity Feeder (Special 2F and Standard 2FP models):	Up to 725 sheets, 20# bond
Envelope Hopper:	Up to 325 envelopes, top-loading
High-Capacity Vertical Stacker:	Up to 500 filled envelopes
Sheet Size:	3.5" - 14" H x 5" - 9" W,
Sheet Weight:	16 - 45# (folded), 16 - 62# (unfolded) *
Envelope Size:	3.5" - 6.4" H x 5.5" - 9.8" W *
Set Thickness:	Up to 2.5 mm
Dimensions:	51" L x 29" H x 18" W
Weight:	165 lbs. (3 stations)
Voltage:	120V AC, 60 Hz

\* Paper & envelope specifications may vary. All media must be tested.

User-friendly full-color touchscreen control panel

High-capacity Vertical Stacker holds up to 500 filled envelopes

High-capacity Document Feeder holds up to 725 sheets and multi-page sets

Optional Production Feeder holds up to 325 BREs
